

An English Lesson A Day For Everyday Use

www.cleverlearn.com

Clever Course[™]
Fun. Fast. Effective.

Learn English with the Largest Library of Online Lessons

Take one lesson a day with the largest online library of English lessons. Our online General and Business English courses let you learn English at your own pace, in your own time.

Apart from two introductory Business English courses, CleverCourse offers these industry-specific courses to get your career on the fast track:

- Marketing
- Business Travel
- Information Technology
- Human Resources
- Manufacturing
- Customer Service
- Finance
- Business Presentations

Developed by language learning experts, CleverCourse is equipped with features to help you learn English faster and more effectively:

Animated Dialogues. CleverCourse's topic-based lessons are presented in animated dialogues. You may slow down the dialogue, by clicking on the "Turtle" button, to listen clearly to the words and keywords and how they are used in the dialogue.

Test Exercises. At the end of every lesson, you may take the test exercises to know how much you have learned from the lesson. Your scores are tallied at the end of the test.

Dialogue Box. This provides you the complete transcript of the dialogue, together with an audio that reads the entire dialogue, for easier review of the entire lesson.

Translation Box. If you do not understand the English words in the dialogue, you can click on the Translation button to read the translation of the dialogue in your native language.

Vocabulary Box. Enhance or widen your English vocabulary by viewing this box, where all the keywords used in the lesson are listed along with their translations in your native language.

MP3 File. To check the correct pronunciation or enunciation of the words, you can listen to the lesson's audio file, or download the audio file for further reference.

Reinforce Your English Learning with Key Learning Tools

Upon signing up with CleverCourse, we create your own personal Cleverlearn learning account. This account provides you with a Personal Vocabulary (PV) feature that lets you store keywords and new words you learned from your lessons. You can access your PV whenever you want to review your stored words.

CleverCourse reinforces your English learning process through key Cleverlearn learning tools:

Word Reminder. Receive word reminders via email with all the key points of your learning for easy review and word retention: the translation of the word, its definition and a graphic representation. You can also log in to your Cleverlearn account to access your Word Reminder online.

CleverTrainer. Master your English vocabulary and proficiency through English tests and exercises, and games right on your PDA. All you need to do is synchronize your Personal Vocabulary with your PDA, so you can take your learning anytime you want, wherever you may be.

Enroll now and Get your Personal Learning Account.
